President's Letter

Greetings Artists

Recent studies have shown that our ability to remember is greatly enhanced when we associate what we are trying to remember with pictures. Associating things, words, names, places, ideas and even emotions with a picture increases our memory capacity and speeds up our recall. But you know that. You live in a visual world, and you are well aware of the persuasive power of representing your ideas graphically.

As we move forward to fulfill our goals for the second half of this year I encourage you to fill your head with images of your personal success. Picture yourself giving meaningful support to the arts and individual artists, some of them your fellow members. See yourself improving your own skills even more this year. Visualize yourself directly contributing to the growth of our league so that we can measure ourselves by the good we do. And remember it for a long time.

Thank you to all who stepped up again to serve, and to those who still will soon. On behalf of all of our volunteers, managers, chair people, board members and officers it is a distinct pleasure to serve.

Pat
